“ I will always remember Cheryl as a hard worker. She and my mother worked together in lawn and garden for several years at Walmart. She was always nice to talk too. When I would see her after my mother moved to another state she always asked when she was coming back and how she was doing. She was always helpful. She will be missed. May you RIP Cheryl!

DR

“ Cheryl was the best co worker I've ever worked with besides Michelle, at Walmart. When I moved away she was asking me when I was coming back to work with her again. So many memories of her I will never forget you. Your free of pain now.
