“ Papa Mike I will never stop talking to you especially on Veterans Day you were told several times on those days that you are " my hero" and you always will be. So listen for my conversations. I thank you for our last phone conversation here back on Christmas Day when I asked you if I could pray for you and with you, and you said you "would love that". What a great tearful prayer we shared. I thank you for the life I have that you shared in making for me. Keep the horses saddled and ready till I see you again. I love you and miss you
