*Growing up watching you and dad work on classic and antique cars was pretty cool. I remember you had a cow in your back yard and you lived in town. Going fishing til midnight with you and dad. I would try to skip school and go to your house because you lived across the street from the school. So many memories growing up with siblings that were adults and some having children close to my age was fun. I only pray you are resting peacefully. I'll see you on the other side. Your baby sis
