“ Lydia I will always remember those late night grocery shopping for the restaurant and then the next morning when we would have to open up the diner and be so sleepy we would end up on top of deep freeze and fall asleep and that door buzzer would go off and literally scare us we went thru so much together and still had a lifetime together I had u for 41 years and not enough time I know I am being selfish but u were my baby sister and I miss u so much and would trade places with u in a heart beat my heart has such a hole in it and never can I fill that void I have so many memories of you but would want more I just wished I could of done more for you if I only knew I just hope you were not scared and I know God has you now and will protect you and love you which we loved you too but he had other plans for you I will always love you but u rest now and I will see you when I get there and we will pick up where we left off I love you baby sister.
