“ Pat was my friend and co-worker for many many years--she was so very intelligent and maintained such class and dignity in her professional career and her personal life. She loved living in the country and especially enjoyed feeding and watching the Hummingbirds that came each year and nested in the bushes just off her porch. She loved her children, grandchildren, great grandchildren and siblings and kept up with all of them---if I mentioned any one of them--she would tell me exactly what they were doing. Because David lived with her ---she depended on him heavily and he had such patience with her while tending to her wants and needs. I am thankful that Pat has no more pain and suffering but I will miss her deeply--rest in Peace my sweet friend--your shift is finished.
